earlier mess than he who sows in the spring." The young asparagus plants are the best substitute for green peas of which we have any knewledge. The cultivation of the root is extremely easy, an vast quantities are raised annually at small expense. Being a marine plant, salt is one of the best stimulants that can be applied. In weeding asparagus we never apply the hoe; we make the weeding and manuring one labor, as the salt which we apply, (in solution, very strong,) while it acts as a healthy and invigorating stimulant to the plants, destroys effectually by its saline properties, all the weeds in the bed. We usually apply a dressing of old, well rotted manure in the fall, and in the spring, as soon as the plants make their appearance, commence watering, the solution, at first, being very weak, increasing its strength as the plants advance. In this way we usually secure an abundance of plants, and probably with less than one half the labor and expense attending the ordinary method of cultivation. Maine Farmer,

GRAFTING FRUIT TREES .- The season of grafting is at hand, and the work should not be neglected. Trees which bring not forth good fruit, whether apples, pears, plums or cherries, should be grafted with scions of better varieties, without unnecessary delay. If this course should be generally adopted, what a remarkable change would a few years produce in the quality of the fruit.— On the subject of grafting fruit trees, a writer says:

"There is probably no branch in immediate connection with agriculture, more interesting or more truly scientific, than the art of grafting. Long as this art has been known in its general principle, the art has recently taken an immense advance, and is yet but partially understood by the most experienced practitioners. That a small twig, or even a bud, or a small piece of the tender bark from one tree, being inserted in the branch or stock of another, should grow to be a main branch of the tree, but bearing fruit of the shape, size, color, and flavor of that of which the bud or scion was taken, is of itself a wonder, and would be incredible if it were not common. This art is already so far advanced, that a fruit-bearing branch is grafted upon the short stump of a nursery tree, so as to constitute a perfect tree in miniature, bearing fruit-apples, pears, peaches or plums, though less than 20 inches high. Apples partaking of different kinds—the sweet and sour flavor, for instance; in different parts, or opposite sides of the same apple, may be produced by splitting longitudinally the buds of different kinds, and uniting parts of different

Wit and Bumor.

A RUM SWEAT .- Everybody, almost, has heard of a "rum sweat," and the ordinary modus operandi. It is a favorite and sover- ver cured by the present mode of treatment; they eign remedy with many amateur practitioners for a "bad cold." We heard lately of a new method of getting up the steam, which we must tell-we are bound to.

Not a hundred miles from the thriving town of Athol. Massachuseets, there lives a mahogany faced man whose daily potations are and strengthen the parts. By purifying the blood somewhat stronger than catnip tea. He has with Dr. SWEETSER'S PANACEA, you re been known to toddle under the extra weight not exist any longer, after sufficient perseverance of a "stone in his hat," any day these num- in its use has deprived the blood and body of all ber of years. Yet the man is not bereft of acrimonious humors and incrustation. all self-respect, but demeans himself as well DISEASES of THE LUNGS-CONSUMPTION. as he is able, "considering," and not unfrequently indulges in the luxury of a clean shirt. It was to provide and array himself with one of these useful articles one bright Sunday morning, that this son of Bacchus built a rousing warm fire in the stove, and fastened his door to promote the comfort and security of the operation. Being thus prepared, he leisurely stripped himself, and taking the primitive garment alluded to by the nether edges, proceeded to work himself into it. He had managed to get one arm into the this is the reason that consumption is so prevalen sleeve, and was trying to discover an opening for the head, when he lost his perpendicular, and began to step back-and back he went, endeavoring vainly to stop himself, or "see out"-that hot stove being precisely in range—till his bare and shrinking calves came in contact, and he took a square seat upon its top! He roared and roasted, he fried and baked, he screamed and "fricaseed" till his door was burst from its fastenings, and he dragged from his dreadful seat, writhing and bellowing with agony.

Many a long night he groaned and cursed. and many a torturing remedy did the doctors apply before he recovered .- Claremont Eagle

FASHIONABLE MUSIC .- What's that !-It's music.-Well, that's artificial too, it's scientific, they say it's done by rule. Jist look at that gal at the piany; first comes a little German thunder; -good airth and seas, what a crash! it seems as if she'd bang the instrument all to pieces. I guess she's vex'd at somebody, and is a peggin' it into the plany out of spite. Now comes singin; see what faces she makes; how she stretches her mouth open, like a barn door, and turns up the white of her eyes like a duck in thunder. She's in a musical eestacy, is that gal; she feels good all over; her soul is a goin' out along with that music. Oh, it's divine, and she's an angel, aint she !-Yes, I guess she is, and when I'm an angel, I will fall in love with her; but as I'm a man, at least what's left of me, I'd jist as soon fall in love with one that was leetle, jist a leetle more of a woman, and a leetle, jist a leetle less of an angel. But hallo! what onder the sun is she about! Why, her voice is goin' down her ewn throat, to gain strength, and here it comes out as deep-toned as a man's, while that dandy feller along side of her, is singin' what they call falsetter. They've actually what they call falsetter. They've actually left of me, I'd jist as soon fall in love with changed voices! The gal sings like a man, and that screamer like a woman. This is science; this is taste; this is fashion; but hang me if it's natur .- Sam Slick.

"Bob, is that dog of yours a pointer;"
No, he is half hunter and half setter,
hats for bones when he is hungry, and
by the stove when he's satisfied."

DR. SWEETSER'S AECOATA THIS Medicine is warranted, on eath, not to contain a particle of Call mel, Corrosive Sub-limate, Areenic, Chluride of Gold, or any delite-

The principle upon which this Medicine acts. y assisting and harmonising with nature; it rives out all foul acrimonious humors from the blood and hody, and by assimilating with and strengthening the gastric juice of the atomach, it easists digestion; in short there is not a vein, artery, muscle or nerve in the human body, that is not strengthened by the PANACEA, and it also possesses the remarkable property of removing mercury from the hones and joints.

FOR ERUPTIONS OF THE SKIN. Scurvy, Scorbuic Affections, Tumora, Scrufula or Kings' Evi , White Swellings, Erysipelas, Ulcers. Cancers, Running Sores, Scabs and Biles, tim and a determined perseverance in D. SWEET SER'S PANACEA, will effect a cure.

FOR INDIGESTION.

Rejection of food, Nauses, Vemitings, Nervous of tretions, Billious complaints, Head act e, Paleness, or Female Irregularities, Dr. SWEETSER'S PA. NACEA will soon effect a cure ; but if obstinate, or attended with griping, flying pains, the dose should be increased, and the cure will soon be effected. Let not the patients frighten themselves with the idea that they are too week to take much medicine; but bear in mind that this mildly operating med cine put not weakness into the frame, most certainly draws weakness into the frame, but most certainly draws weakness out, leaves strength in its place, and by giving composed sleep at night, and an appetite to relish any food, re-animates the whole frame with vigorous action, clearing the mind and improving the sight.

SCROPULA AND GLANDULAR AFFEC-

TIONS.
Scrofula is said to be heriditary, the infant re ceiving from its parents the seeds of this disease, which increases with its years, if neglected and not submitted to frequent purification with Dr. SWEETSER'S PANACEA. The glands are placed in the corners of the body, and out of the way of direct communication; their real use is a subject on which much difference of opinion prevails; it suffices us to know that when in a diseased state, they are capable of being pur fied and cleansed by a long course of Dr. SWEETSER'S PANA-CEA, which restores them to sound and proper action. Scroful us persons can never pay too much attention to their blood, its pur fication shou'd be their first thought, for after a long course of perseverance, they will ever cure hereditary disease.

In cases of JAUNDICE ASTHMA, LIVER COMPLAINTS, TIC DOLOREUX RHEU MATISM OR RHEUWATIC GOUT, Dr. WEETSER'S PANACEA cannot be too high ly extelled; it searches out the very root of the disease, and by removing it from the Blood makes

For discuses of the Bladder and Kidneys, Strictures, Gravel. Stone, Piles, Fistula, Urinary Obstructions and Extreme Costiveness. Dr. SWEET-SER'S PANCEA is the best remedy ever tred; Blood which give rise to the above diseases, and by keeping the blood in a pure condition, insures

For DROPSY, FALLING OF THE BOWELS, Impurities of the Blood, Mercurial Taint, Weak-ness of the Spine Flow of Blood to the Head Gid-d ness, Singing and Buzzing Noise in the Head and Ears, Dr. SWEETSER'S PANACEA will give certain relief; in all severe and chronic cases, the petients cannot be too often reminded that larer doses and perseverance will effect a cure.
In Chills and Fevers, B linux Fevers, Affections

of the Eyes and Ears, Spongy and Bleeding Gums Bronchitis and recent Coughs and Colds, Dr. SWEETSER'S PANAUEA will be found

GRAVEL AND URINARY COMPLAINTS. Those complaints are generally attended with usually accompany the patient to the grave, after suffering the most excruciating pain and torture, The cause of these complain's are the same as all others, the dross of the blood becomes encrusted or the finest narrow passages, whence arise morbid secretions and stoppages of urine. You will find the most powerful diureties of no use, as they only

This is a very prevalent and fatal disease; it resul's mostly from neglected coughs, colds and bronchitis, also from improper treatment in many other cases, such as measles, fevers, inflammations and small pox, and a host of other badly treated disease where the cause, instead of having been thoroughly removed from the blood and body, have only pulliated or removed from one part to break out in another. By divesting your bodies of all foul humors, through the medium of Dr. SWEETSER'S PANACEA, the cure is at once rendered certain pious humors floating in the circulation, it is as not to settle on the lungs as any other part of the body

BILES, SORES AND ULCERS,

Which you see on the exterior, come from and have their source in, the interior, and might just as well have settled on your lungs, liver, or any other part; which we know they frequently do, and proface most violent inflammatory disorders. The humor which occasions these sores is of a highly acrimonions burning nature. We know it from the pain it gives in forming, and afterwards its rapidly ulcerating and corroding the flesh and skin of the part where it breaks out. This shows the necessity of frequently purifying the blood with Dr. SWEETSER'S PANACEA, and keeping such malignant humors in subjection. Should you have bile or ulcer, be thankful that nature has taken trouble to warn you of the danger your life and bo ly is in, for it is a warning that the blood is foul. Had this same acrimony as lected the lungs in-tead of the surface of your body for its seat, consumption of the lungs wou'd have been the consequence. D. lay not then, to purify and cleanse with Dr.

sectser's Panacea.

SPINE DISEASE.

Spins! affections, enlargement of the bones and Spinal allections, rinargement of the bottes and joints, white swellings, hip joint complaint, ruptures, falling of the bowels and wom's disease, will find a speedy oure in Dr. SWEETSERS PANACEA. Where the disease has been of long standing, the time required to make a cure will be longer; but the patient may rest assured that a

BRONCHITIS, ASTHMA AND DISEASE OF

THE WINDPIPE.

These diseases proceed from the seriosity or orrupt humors of the blood, having settled itself on the throat and lungs, and stopped them up, so that they cannot draw sufficient sir in for respiration, Dr. SWEETSER'S PANACEA will give immelinte relief, and to make the cure perfect and certain, it should be continued some time after, to free the system of all bad humors.

RHEUMATISM, RHEUMATIC GOUT AND be consigned to the tomb of all the Capulets, and only be thought of as a by-gone custom of the darker ages. Dr. Sweetser's Panacea is also a sure cure for dyspepsis, piles, costiveness, vertigo, headache, pain is the breast and liver complaint.

FEVER AND AGUE. Fever is always caused by a disorderly move-ment of the blood, struggling to free itself of some-thing that encumbers it; in fact, every kind of fe-ver is nothing more than a struggle between the blood and corrupt humors, and as soon as the cor-

rupt humors are expelled, you have no more fever.
When a patient with fever submits to be 11 d, or have his blood poisoned with mercury, it weakens his frame to such a degree, that if he survives the Headache, Giddiness, Messles, Salt Rheum, process, it always leaves him subject to distressing chills, when 9 times out of 10 he resorts to saue pills, powders, or tonic mixtures; this is going from had to worse, as these vegetable pills, powders, &c., are nothing but mercury and quinine in disguise, which may for a time drive the disease so far into the body as not to be perceptible, but very soon it will break out again with fearful violence. To cure will break out again with fearful violence. To cure ague and fever, the cause of the disease must be removed out of the blood and body, which can be effectually done by using Dr. SWEETSER'S PANACEA, which purifier, cleanses and strengthens. It contains nothing that can possibly injure, and its use is always a safeguard against chills and fovers.

In ALL CARRE OF PILES, Dr. SWEETSER'S PANACEA will effect a very speedy cure. It re-moves from the blood, stomach and bowels, all those foul acrid burning humors, which are the cause of Piles and Costiveness, and by strengthening the digrative organs, improves every part of the

FLATULENCY AND WIND. These diseases are caused by the stomac's and nowels being choked up with viscid slamy matter. be air which enters them cannot e cope until forced by some contraction of the somach to expel it: berce the cause of pain. A few doses of Dr. SWEETSER'S PANACEA will convince the sufferer that relief is attained.

GREAT MEDICINE FOR CHILDREN. Parents will find the PANACEA a valuable sedicine for their children, keeping their bodies in a healthy condition, thereby assisting their g owth; children or grown persons, after taking it, are not liable to be attacked with an epidemic as before, as it always leaves the blood in a pure condition, and the entire system in a strengthened state; it drives out all kinds of weskorss from the b. dy and leaves

will heal by within. — MARRIED LADIES
Will find Dr. SWE PSER'S PANACEA a medicine purely adopted to their use. Most ladies duon the blood and fluids, insures to them healthy off pring. No one who is a mother should be without it, and those who are nursing will find it of great benefit to the health of their infants. For barrenness and all diseases of the womb, is without a rival in the entire history and estalogue of medicines; by its extraordinary strengthening power, it stimulates and strengthens the womb, cakness of which is the cause of failure to have offspring.

NERVOUS DISEASES. Under this head may be classed Palpitation of the Heart, Tie Doloreaux or Facenche, Neuralgia. Indigestion, Toothache, Melancholy, Hysterics, and in fact, every disease caused by the sharp, biting acrimonious humors irritating the nerves; the nerves receive the morbid impression from the sto-mach, or rather from the blood through the agency of the stomach and dige tive organs, and although other parts of the body are apparently the seat of the disease, still it is caused by the morbid imp ession conveyed from the blood by the nerves to that part. A few doses of Dr. SWEET'SER'S PA-NACEA will soon assure the patient that he ha the cure in his possession.

ERYSIPELAS, on ST. ANTHONY'S FIRE This is an inflammatory disorder, always at ended with more or less pain. It proceeds from the foul, acrimonious humors lodged in the blood and fluids, settling on the limbs and face, causing extreme pain and fevers; all applications on the sur-face are worse than useless, as they only tend to throw the disease in some other part, and perhaps cause death. Bleeding is likewise improper. To cure the di-case you mu-t get rid of the cause; only manage to get the foul humors out of your blood, and you will be well in a day. Dr. SWEET-SER'S PANACEA, a thorough purifier of the blood, will search out every impurity in the more remote perts of the body and expel it through the medium of the bowels. There is not a vein, ry, muscle or organ of the entire framewo k of man, that Dr. Sweetser's Panacea does not im To take it when you are well is to keep well; and when sick to become well.

DR. SWEETSER'S PANACEA, being composed only of a vegetable matter or medicat nerbs, by her physicians-Sherman's Balsam was given and warranted, on oath, as containing not one par- and it cured her, age, or the weakest frame, under any stage of human suffering; the most pleasant and benign in its or eration that was ever off red to the world; and he root of any complaint, however deep, and of the Balsom operated like a charm. Dr. C. also performing a cure.

DR. LIB ROTE Vegetable Universal Pills, The only known Medicine that at the same time purges purifies and strengthens the system.

Lownon, July 7, 1846.

R. L.E. ROY'S Pills are a new medicine which has just appeared, and is fast taking the places of all others of the same class. These pills are composed of many ingredients, but the two principal ones are Sarsaparilla and Wild Cherry, so united that they act together; the one, through its admixture with other sub-ta-ces, purifying and purging, while the other is strengthen-ing the system. Thus those pills are at the same time tonic and opening; a desideratum long and cagerly sought for by medical men, but never beof two medicines, and do it much better than any two we know of; for they remove nothing from purge they strengthen; and hence they cause no Le Roy's pills have a wonderful influence on the lood; they not only purify without weakening it, but they remove all nexious particles from the chyle before it is converted into fluid, and thus make impure blood an utter impos-ibility. As there is no ebilitation, so there is no nauses or sickness attending the operations of this most excellent of menever strains or tortures the digestive functions, but causes them to work in a perthe feetly natural manner; and hence persons taking them do not become pale and emeciated, but the contrary; for while it is the property of the Saras-parilla, united as it is with other ingredients, to parilla, united as it is with other ingrements, to remove all that is foreign and impure, it is equally the property of the Wild Cherry to retain all that is natural and sound; and hence a robust state of health is the certain result of their united operaons. O Price 25 cents per BOX.

tail, No. 87 Nonth Thinn STREET, opposite Cherry street, Philadelphia, by JOSEPH E. HOVER, May 22, 1847 -- j30 ly

SIX YEARS AGO

THE children began to cry for Sherman's Lo-, but it has kept increasing ever since, and now has become so great that the mouths of the little ones can scarce be stopped. Dr. Sherman sympathises with the little sufferers, and very much te-Knowing the vast benefit which has been conferred upon the community by the introduction of his infallible WORM LOZENGES,

he has entered into arrangements for enlarging his Manufactory, by means of which he thinks he will be able to supply the demand. And the same pains zerges be made as they have always been, in order that those who depend upon them, may not be disappointed in their hopes. He knew when h commenced the manufacture of the Worm Lozenges, that they would supersede the use of every other vermifuge, as the Lozenge is very pleasant to the taste, speedy in its effects, as well as certain, and the quantity required to effect a perfect cure, is very small. These properties in connexion with the f ct that they are sold for 25 cents per box, thus placing them in the reach of the poorest man in the land, has not only caused them to take the place of every other vermifuge ever offered, but al rendered them popular to the community.

Dr. Sherman's COUGH LOZENGES continue to cure Loughs, Golds, Gonsumpt'on, Asthma, shortness and difficulty of Breathing, and other disea es of the Lungs, with the same facility they did on their first introduction, and the people have now become persuaded by actual exprience, that on the accession of a light cold, they have only to step to either the Dr's office, or one of the Agents, and obtain a box of his Cough L zerges. which are very convenient to carry in the pocket. and to take a few through the day. By pursuing this course a cure is often effected in 24 hours, and the patient about his busin sa. So great is the celebrity of the Lozenges, that thousands of persons who have used them, and become acquainted with

their effects, will never be without them. SHERMAN'S POOR MAN'S PLASTER has cured more cases of Rheumatiam, Pair in the Back, Side and Chest, Lumbago and Weakness. Back, Side and Cheef, Lumisage and Weakness, than any application that has ever been made. As the celebrity of the Plaster has increased, hundreds of unprincipled rescals have attempted to counterfeit it, and palm it off upon the community as the genuine. Bewase of Deception. D Remem ber that the true and genuine Plaster is spread upon reddish paper made expressly for the purpose. and in every case the signature of Dr. Sherman is printed upon the back of the Plaster, and the whole secured by Copy Right. None others are genuine Therefore when you want a real good Sherman's Poor Man's Plaster, call at the office, 106 Nassau

Poor Man's Plaster, call at the office, 100 Nassau street, and you will not be disappointed.

Remember the number, 106 Nassau st., where all Dr. Sherman's Lozenges are sold. His Agents are Mrs. Hays, 139 Fulton street, Brooklyn; Hineson, Williamsburg; and Redding & Co., Boston, and JOHN YOUNG, Sunbury.

M. A McCAY, Northumberland.

DELAWARE.

Peace with Mexico!

DANIEL HENINGER. COUNTED TO THE NFORMS the public that in order to bring a bout a peace with Mexico, he manufactures all kinds of Rifles, Double and Single Barrelled Shot Guns, and Double Barrelled Revolving Rifles, at his manufactory at Hollowing Run, Lower Augusta township, Northumberland county, all of which he will warrant for six months. Those who want a first rate article in his line, can be accommodated at the shortest notice and on the most essentiable terms. Lovers of sport, give him a call. Lower Augusta, Jan. 8, 1848—6m.

C. BENKERT. BOOT MAKER. No. 40.

GEMS OF POESY.

From Mr. Dit's Poem before the Mercantile Library Association, Boston.] "Keep cool! the secret of success in life

Lies not in haste, excitement, bustle, strife, This bolting dinners, hurrying to and fro; Keeping up one continued, constant 'go;' Taking you pleasure jaunts at railroad speed, And never stopping aught to see or heed; This going to China just to have a chat, Taking but one clean dicky in your hat; These are the features of the times, I own, That give to modern life its zest and tone; But do they bring us real, genuine joy, True happiness, unmixed with base alloy! Keep cool! don't strive for sudden wealth too

Fortunes, quick made, are seldom known to

Like wat'ry bubble that in air revolves, A breath but makes them and a breath dissolves:

Write letters, if you've any time to waste, But don't I pray, subscribe yourself in haste; Men have been known their hopes in life to

By heedless scratcing of some wayward quill And e'en our generalss see their fortunes droop,

When trusted to a hasty plate of soup. Be wise, discreet-of danger take good heed, Be cautious, and you cannot but succeed; Shun all rash acts,-let moderation mark Each enterprise on which you may embark; And from your mind ne'r let there be effaced par | And from your mind he'r let there be chaced failed | The old yet sterling proverb—"Haste makes Waste !"

> A Western jury, sitting on a trial for stealing a jug of whiskey, rendered the following

"We, the jury, find the defendent not guilty, and recommend him to mercy. The sheriff to treat the jury-the attorney to pay the costs, and the judge to fill the jug which the defendant drank out of, and which the jury have emptied during the trial."

LOUIS PHILLIPPE COMING TO THE UNITED STATES .- A letter from one of Louis Phillippe's intimate friends was received by the steamer Washington, by a gentleman of New York, announcing that the ex-King has taken the resolution to come and fix himself, with his family, in the United States. So says, confidentially, the Courrier des Etats Unis.

"A Secret Treaty," or address, adopted at a British Association meeting on Monday last, to be sent out by the Caledonia. of which the New York Sun gives an extract, declares that the British monarchy cannot be preserved, unless the upper classes permit the immediate adoption of measures which their personal interests will make them denounce as revolutionary.

A PORTRAIT OF DE KALE.-The Vis-

countess de Kalb d'Absac has deposited with the American consul at Paris a fine and genuine portrait of her grandfather, Major General Baron De Kalb, to be presented to Congress. It will be forwarded to New York in one of the Havre packets.

THE Stayes in the French Colonies are vest has been gathered.

THE CROPS OF MARYLAND,-Throughout the Cotoctin Valley the crops present a most promising appearance.

Dr. Coolinge.-The last accounts from Thomaston, say that that distinguished individual was was closely applying himself to the making of shoes.

THE CLOSING SCENE OF A DESPERADO .-Capt. Tobin, who is now at San Minguel, thus notices the last moments of a dving gambler a desperado from Tennessee: He was in the last stage of galloping con-

in blaspheming his Maker, boasting of having committed five murders, and regretting that he could not carry his money to hell and cheat the devil at poker! He died that night and left \$2000 in gold behind him!

sumption, and his latest breath was expended

Santa Anna.-The Arco Iris says that

Santa Anna has embarked for Antigua.

Louis Phillippe has purchased a fine cstate in Hampshire, England, He has large sums invested in the English funds,

Louis Napoleon Bonaparte has been civily requested by the Provisional Government to leave France, for a short time, until matters are more settled. The actual number of lives lost by the

French revolution was one hundred and

seventy. In the three days of 1830, there

were thirteen hundred people killed-The cost of the two new houses of Parliament, in London, will amount to the enormous sum of seven millions and a half of

THE DUCHESS DE MONTPENSIER it is said, is the perfect be u ideal of a Spanish beauty, rather petite in figure, but with a face of surpassing loveliness.

LUNATIC ASYLUM,-The bill appropriating \$50,000 for the erection of a Lunatic Asylum at Harrisburg, has passed both branches of the Legislature.

Their Royal Highnesses the Duke and Duchess of Montpensier left England last week for Ostend on their route to Germany.

THE THREE GLORIOUS DAYS OF PRINCE LOUIS NAPOLEON.-Feb. 26th .- I left London for Paris, 27th .- Preached Paris, 28th -I left Paris, and reached London. Moral.—I came: I saw; but somehow did not conquer. Caesar (a little altered.)

TURPENTINE.—The annual product of turpentine in the State of North Carolina is estimated at upwards of a million of bar-

THE OLD UMBRELLA.-Louis Phillippe left his umbrella at Paris. We suppose he had no use for it when the reign had ceas-SOUTH FOURTH STREET, ABOVE CRESING.
